I had some brothers by side that ain't around, they ain't outside no more
A-A-Ace

I had some brothers by side that ain't around, they ain't outside no more
Give what I get with no regrets, the life I live
I'm flying straighter than an ironing board
For every tear you ever shed, I really sweat and bled, why the fuck we all g
rinding for
I had to make myself correct, I got a check to hooyo, you don't gotta cry no
more

I lost some niggas on the field, I think I really needed the things
I done for you, I should have done them for myself
I froze my heart cause I don't need it, you gave me a reason
Brand new hand ting rubber grip that goes below the belt
Ain't with my niggas, some months I rise the block, with a dots, I don't wan
na ride no more
But every jail call that I get, I make sure my niggas get more than they was
asking for
I'm home alone with no lights on, I'm home alone with no lights on
I'm home alone why do I always turn the lights off
I lost some brothers that I wish I had all life long
Way too many, too many people had their life gone
I upgraded, the 2 door coupe into a lamb

I hop out the whip, uh-huh, I did what you did, I'm winning and I'm lit
Focus on my fit, uh-huh, still watch for the feds uh-
huh, might fuck on your bitch uh-huh
She sucking my dick, you liking the pic, you liking this shit uh-huh
She want a menace and a robber, fly her out to Bahamas, private jets in paja
mas
It used to be a Honda, now the chop looking monster, whipping it through the
traffic

I had some brothers by side that ain't around, they ain't outside no more

I told you light on as long as I can remember, got you out of mind midnight,
around December
Seen it snow from your eyes, heart colder than a winner, we were both playin
g games, but I won em, this my confession
All we know is aggravation, allegations, separation, isolation, devastation,
desperation, still don't get consideration
We all going straight some time, bro told me it's getting hard to pray somet
imes
I told my bro, let's go record, I'm going all in, now everything is automati
c, no more stallin'
Ever since I was a child I wanted money, I had to make my family proud, do i
t for mommy
L-E-I-C-E-S-T-E-R is where I'm from, M-O-N-E-Y is what I want, yeah
L-O-V-E we don't want your love, spend it with the people that I love

I'm home alone with no lights on, I'm home alone with no lights on
I'm home alone why do I always turn the lights off
I had some brothers by side that ain't around, they ain't outside no more
