

# The One

wewantwraiths

Let the dogs in two by two, I feel like I'm the one  
I like spendin' that on engines  
High performance, hit them raw  
I need a tour to see my fans and show 'em love  
'Cause this music changed my life for me  
You don't know what you done  
Let him come, told you, "Go on, bring your gun"  
From this city, full of foxes, feel like nobody belongs  
Police seize all my belongings, all these questions gettin' long  
You can see the frustration when I keep sayin' no comment

Went against the grain and made the wave and swam against the current  
I might double her picture to make the bitch feel important  
I'll probably double-tap and hit and leave you by the mornin'  
I'm sorry for the people I done wrong  
Know the Urus sound way better when put that shit in Corsa'  
Living life like I play sport for all the times that I perform  
Still I scream free all my bros why is it taking them this long  
Proper money where your mouth is there's no food inside this cupboard  
Run through all this money, used to be two bills for shopping  
Now I spend a couple bags just on my T-shirts and my boxers  
It was Tuna now it's Lobster  
Upgraded the Hummer to afford a Bentayga, now we good  
Misunderstood  
But I'm good the handle hanging out the pouch  
But we still got it in the club, man I thought you was a thug  
Mmm Mmm, don't cry oh  
I fell in love with spending money on designer  
I was alright now things in life are looking finer  
I'm tryna climb a stage where I'll be headliner  
Off-White oh, tryna beat the cycle  
Left right hook, feel like Mike Tyson

Let the dogs in two by two, I feel like I'm the one  
I like spendin' that on engines  
High performance, hit them raw  
I need a tour to see my fans and show 'em love  
'Cause this music changed my life for me  
You don't know what you done  
Let him come, told you, "Go on, bring your gun"

Police seize all my belongings, all these questions gettin' long  
You can see the frustration when I keep sayin' no comment

Let the dogs in two by two, I feel like I'm the one  
Feel like I'm the-, feel like I'm the one  
Like spendin' that one engines  
High performance, hit them raw, raw  
Let him come, told you, "Go on, bring your gun"  
Let the dogs in two by two, I feel like I'm the one  
Feel like I'm the-, feel like I'm the one  
Like spendin' that one engines  
High performance, hit them raw, raw
