

Unforgettable

wewantwraiths

Pour this pint over my feelings
That's that dirty love
If you love me and you mean it why'd you cut me off ?
Risk my freedom for a time-piece tryna find the time we lost
It cost a lot to be a boss
I'm tryna pay it all
No point saying I'm sorry
Used to hate when Hooyo called saying she worries
If you got me then I got you the same way that you got me
In God We Trust, still need a glizzy and a dirty glove

If you locked these doors you still couldn't contain me
They froze the time on my niggas
I'm praying that they don't take me
I get so much love I don't mind if you hate me
This spinner older than me it comes from the 80's, that's why...
This revolver be solving all of our problems
Keep it constant for the nonsense, ain't got options
Paramedic helicopters, you gon' need more than a doctor
If they did me dirty then it's gonna cost them
I need a gun this Lamborghini, my family really needs me
This lean made this rapping easy for me
I can't wait till the day is over
My niggas are never sober
They'll pull you and do you over for free

Stay with me
You tried to love me and leave me
But some how you kept the pain with me
Rolls Royce umbrellas if it rains on me
Don't change, won't change, stay the same with me
Stay the same

All these trials and tribulations gave me game
That's why I'll always choose this money over fame
Everything I overcame...
You think I'd lose it all just for a lame?
Catch a charge, to go to jail and start again?
That's no way
I got charges I'm praying that they all go away
All my niggas done the dash soon as the law came
Remember making a rack and splitting it 4 ways
Stacked that paper persevered and now we all paid
You don't make it where I'm from, I know they mad I made it
Every time I spit it's no cap like we graduated
Ain't got 300 niggas but we all Gladiators
And all the beef is coming marinated
The block's full of fakes, snakes, hoes
It's so contaminated
Only time these niggas squeezing is when they're masturbating
Fuck your allegations
Shoes made out of alligators
You can't sign me, I'm too activated
I guess you don't know what you have until it's gone
I was broke and I was weak but now I'm strong
Hoyoo on the phone, telling me come home
But I'm on this paper route and I know where I'm going

Stay with me
You tried to love me and leave me
But some how you kept the pain with me
Rolls Royce umbrellas if it rains on me
Don't change, won't change, stay the same with me
Stay the same

You told me get my mind right like I haven't done before
I'm a Muslim but still grindin' for some Christian Dior
I'm just tryna die rich cause I'm tired of living poor
You can take my life but you can never take my soul
The streets are unforgettable
I couldn't do this shit alone
Mmm, gunshot
Our Hoyoos really think we haven't hurt nobody
Gotta keep a glizz don't wanna hurt nobody
My niggas with the shits, they're gonna murk somebody
I know my Lord forgives and I'm so so sorry
