

# War Crimes

wewantwraiths

Fumes on the beat

Feed 'em to the lions, they ain't keeping silent  
Giving them info, that's why the police watching  
Niggas really violent, waiting for the violence  
Why we invested in sticks  
The .357 got sensible kick  
If I aim it, where you go, why you dip?  
Christina, baby got safety for kids  
Yeah, it's older than me, put respect on my hip  
And the years that I'm getting is probably six  
And that's if I get nicked and got nobody hit  
Woo, woo, made 100 legit  
I just started rapping now they want me to quit  
It wasn't nothing when I never had nothing  
Keepin' something, yeah I'm always a quit  
Free up the chain gang, hundred times in this bitch  
And free all the livers in it

Back in my old days, when I never had no problems  
Money started coming constant  
Niggas change up and invested in choppas  
Some niggas saved up and invested in dollars  
Just got the change up and came up from the bottom  
Lost it all and made it happen again  
Once again I pray we don't miss the target, yeah

6 figures in cheques, I ain't even collect  
And I don't need a guest, I say you be my guest  
What's that watch, I told her take a guess  
These Autumn watches made these bitches wet  
Rollie, Audemars, Pateks, I can buy a few watches  
I'm saving my cheques  
'Cause I came from nothing when no one had nothing  
Had no one to turn to, no brothers or cousins  
Had to shout-out my mother for keeping me humble  
But she took my life for me and I struggled  
That's why I'm salty and keepin' my hunger  
Remember them nights that my belly would rumble  
I'm just saving every penny I'm making  
And If I die, I'm gon' see my creator  
Give my 5 M's to the kids with no way out  
And build a farm for the poor kids in Asia  
All of these war crimes, killing Muslims that all time  
High in the crumbled, to see them get crumbled  
How Muslims and China are alright  
Palestine's are on a rope, but the struggle is realer than us  
And we are all fine, they throwing rockets at them all night  
They're throwing rocks back and got no rights  
If I say too much, I know they'll get me cancelled  
Don't you think they already got the cure for cancer  
Everybody selling homes, taking vaccine  
COVID-19 kinda fucked our plans up  
For hood this fame, the game, the name and everything with it  
'Cause we'll goin' burn If we don't take a minute to pray for our Mothers and Fathers and Sisters, I'm gone
