

Death Drive

What So Not

If I run too far, pull me back
Back to reality
If I run too far, pull me back
Back to reality

If I roam too far, take me home
Home underneath the stars
If I roam too far, take me home
Home where I left my heart

(Drop)
(You're now rocking with the b-)

If I roam too far, take me home
Home underneath the stars
If I roam too far, take me home
Home where I left my heart

Don't you let me
Go
Don't you let me
Go

(Drop)
(You're now rocking with the b-)

Don't let me go
(Drop)
(You're now rocking with the b-)
I need no hesitation
And so you know
(Drop)
(You're now rocking with the b-)
Need a little wisdom
(Drop)

If I run too far, pull me back
Back to reality
If I run too far, pull me back
Back to reality

If I roam too far, take me home
Home underneath the stars
If I roam too far, take me home
Home where I left my heart
