Demons

What So Not

Oh, super sauce
Ay, ay, I said

Demons in the night
I think I fell in love this time
God damn, I love this time
I do, it's what I scream to you

Say, demons in the night
I think I fell in love this time
God damn, I love this time
I do, it's what I scream to you

Look, I think we all need a ride or die
And I won't be content until I find it
I find that tangibility don't change the climate
Shit, meaning the flesh is weak
Meaning that breast you seek

Shouldn't be the basis, face it
Faces diminish I need a bitch to have faith in
I've had my days of speed racing
Three chicks everyday, weed, sex, speed dating

Ay, ay, I said demons in the night
I think I fell in love this time
God damn, I love this time
I do, it's what I scream to you
Say, demons in the night
I think I fell in love this time
God damn, I love this time
I do, it's what I scream to you

My love, my love, I'm waiting for you
Look behind we saw them fly them demons coming
Just keep running

My love, my love, I'm right here for you
Well let’s take to the skies I can't leave you behind
If I did, I'd be haunted, be haunted

I said demons in the night
I said demons in the night
I said demons in the night
