

Take the shot, I'll take the blame  
Don't know if you'll do the same  
It's so easy, you just made it hard  
You let them hate me for no reason  
I was there when I was needed  
I hold you down but they don't see that part

People talk, people hear  
They don't know what we deal with  
They only get in the way  
They only get in the way  
What's the sign? What's the feeling?  
If you don't even feel it  
They only get in the way of us

If we're in love then we should make it  
'Cause when we do is so amazing  
Shouldn't be a conversation at all  
And all your friends that's always hating  
They don't know our situation  
So don't discuss these relations of us

People talk, people hear  
They don't know what we deal with  
They only get in the way  
They only get in the way  
What's the sign? What's the feeling?
