

You know we're the same  
There's nothing I can change  
You took my heart and break, baby  
I was yours to tame  
You threw it all away  
There's nothing left to say, baby

Way too many things going through my mind  
But all my thoughts are of you, girl you make me blind  
I can't see nobody else, girl, it's only you  
Yeah, I hope you like me back, I don't know what to do  
I caught your eye from across the room  
Baby who is that guy getting close to you?  
Yeah, I know we're not together, but still you're mine  
Tell me what I got to do to get that through your mind

Just tell me if you want me, baby  
Why you waste time  
Why you waste time  
Just come to me  
Girl, you got me acting crazy  
Out of my mind  
Out of my mind  
Just come to me

You know we're the same  
There's nothing I can change  
You took my heart and break, baby  
I was yours to tame  
You threw it all away  
There's nothing left to say, baby

I'm sorry if I'm being a bit too much  
But it pisses me off that just can't touch  
In class we would only talk with our eyes  
Yeah, I'm done with staring baby, I want you to be mine  
Yeah baby, you were made for me (You were made for me)  
And I know that you want me (That you want me)  
I caught your eye from across the room  
Baby who is that guy getting close to you?  
Yeah I know we're not together, but still you're mine  
Tell me what I got to do to get that through your mind

You know we're the same  
There's nothing I can change  
You took my heart and break, baby  
I was yours to tame  
You threw it all away  
There's nothing left to say, baby
