

snakelike (the stars collide)

whatsaheart

Break away
From the path preordained
I'll take away
All your pride and your rage

I'll swoop in and take you out
You're gonna give in, just let it all out
Please don't hesitate, just fall into me, my girl
You've curved me enough, I'm going all out
I'll reach in your chest and pull your heart out
Please don't hesitate, just fall into me, my girl

The stars collide when you and I
Intertwine for the first time
The stars collide when you and I
Intertwine for the first time

Look at me now, listen to what I have to say
You see now? Keep this shit up and I'm gon' break
Don't want you hearing anybody else (nobody else)
If you're not with me, then you're by yourself (by yourself)
Why even talk to anyone else when I'm here?
Act like I don't see it, but I'm watching you
Don't even look at anyone else when I'm here
I don't wanna see it, but I always do

I'll swoop in and take you out
You're gonna give in, just let it all out
Please don't hesitate, just fall into me, my girl
You've curved me enough, I'm going all out
I'll reach in your chest and pull your heart out
Please don't hesitate, just fall into me, my girl

The stars collide when you and I
Intertwine for the first time
The stars collide when you and I
Intertwine for the first time
