

# Lady Adelaide

Wheatus

Lady Adelaide, why can't we compromise?  
You can have your shoes and I will take your spice  
You know that I've been fallin' for you this whole time

Babe, I think there's a monster coming  
I think that we best start running

Run for miles, honey, me and you  
In this summertime  
It's a big deal for me and you  
If we just survive

Live a lifetime, oh, me and you  
Live a lifetime, with just we two  
Don't get left behind  
Don't get left behind

Mistreated me, what are you still doin' here?  
All our fun and games have been replaced by fears  
You know that I've been fallin' for you this whole time  
We will be swallowed up this summertime
