

Semolina

Wheat

Semolina lost her shoes
She caught a beatdown, she had a hell of a morning
Semolina works at 2, when she gets there she'll feel alright
Semolina lost her purse, she caught the bus to work
Where she's a hell of a foreman
Lays it down on the factory floor, til the time clock punches, she'll be fine

If you forget about it
(If you start to doubt it)
When you're starting to doubt it
You can forget about it
If you're starting to doubt it
(You can live without it)
You should forget about it
Cuz you're starting to doubt it
(You can turn it around)

Semolina shouts around in the drywall of The Oilworks Building
All the neighbors know she's home and she's not alone
She'll be up all night
Cleaning up the dust of the fallout
Back up and pack up and haul out

You should forget about it
If you're starting to doubt it
You could forget about it
When you're starting to doubt it
If you forget about it
Cuz you're starting to doubt it
You should forget about it
If you're starting to doubt it

Semolina
One woman industrial revolution
Semolina
One woman industrial revolution
Semolina
One woman industrial revolution
Semolina
One woman industrial revolution

Semolina lost her shoes
She caught a beatdown, she had a hell of a morning
Semolina shouts about, "This is home now, not The Oilworks Building"

(One woman industrial revolution)
Semolina pushed it through
She caught a beatdown, she had a hell of a morning
(One woman industrial revolution)
Semolina shouts about, "This is home now, not The Oilworks Building"

(And you forget about it)
You forget all about it
(If you're starting to doubt it)
If she's starting to doubt it
She should forget about it

(You can live without it)
If she's starting to doubt it
She could forget about it
(If you're starting to doubt it)
If she started to doubt it
Would you forget about it
(And you forget about it)
If you started to doubt it
Could you forget about it
(If you're starting to doubt it)
If you're starting to doubt it
You should forget about it
(You can live without it)
If you started to doubt it
We could forget about it
(You can turn it around)
If you're starting to doubt it

Semolina, Semolina...
Semolina, Semolina...
Semolina, Semolina...
