

## Sex, Drugs & Country Music

Wheeler Walker Jr.

Met this girl at a honky tonk  
I caught her staring at my balls  
We talked a lot did a couple shots  
I was fingering her before they said last call

Now we're at the Motel 6  
Got a bunch of good coke in a line  
And I'm fucking her from behind  
And we're listening to Patsy Cline

Sex, drugs & country music  
Man that shit sure puts me in the mood  
Sex, drugs & country music  
Only three things I ever wanna do

3 AM she passed out  
I stayed up staring at her tits  
Sun came up hungover as fuck  
Must have woke her up with my fucking loud ass piss

She rolled over with her morning breath  
And said she'd like something to eat  
So I gave her a piece of this meat  
Played a little Waylon, smoked a bunch of weed

Sex, drugs & country music  
Man that shit sure puts me in the mood  
Sex, drugs & country music  
Only three things I ever wanna do

I'm sick of all these pussy-ass rock star try-hards  
Trying to be like me  
They call it sex, drugs & rock-and-roll  
But the sayin' oughta be

Sex, drugs & country music  
Man that shit sure puts me in the mood  
Sex, drugs & country music  
Only three things I ever wanna do  
Yeah the only three things I ever wanna do
