

# Can't Hide

Whethan

Hey, yeah  
Hell I know how it is sometimes  
You're holding on trying to forget them all night  
Till you're drunk and you text that other ex  
The one that said that they'd be there when you needed them

Peace of mind  
Don't waste your time with looking back  
They're broken pieces of past  
Come here and make some love that  
Make some love that

Lasts, lasts, lasts  
You can't hide  
Come make some love that  
Lasts, lasts, lasts  
You can't hide  
Come make some love that lasts

You lay back  
Cold shower with the music on  
Hoping the sounds will drown them out till you're sober now  
Fighting the thoughts that you will never be in love  
That you will never feel at all from this time on

Here I am  
Don't waste your time with looking back  
They're broken pieces of past  
Come here and make some love that  
Make some love that lasts  
Lasts, lasts, lasts  
You can't hide  
Come make some love that

Lasts, lasts, lasts  
You can't hide  
Come make some love that  
Lasts, lasts, lasts  
You can't hide  
Come make some love that lasts
