Whethan

Hey, hey, I'm not  
Overly sociable  
Come join the dots  
Too overemotional

I know, I know you said  
That life sounds better as a duet  
I know, I know, I know you said  
I go swimming with the clouds again

Hey, hey, I'm not  
Overly dependable  
Let's make it stop  
If we can't make it exceptional

It's true, it's in my head  
That life looks better in retrospect  
Hey, hey, I'm not  
Too overemotional

I go swimming with the clouds again  
I go swimming with the clouds again  
I go swimming with the clouds again  
I go swimming with the clouds again

I go swimming with the clouds again  
I go swimming with the clouds again  
I go swimming with the clouds again  
I go swimming with the clouds again  
I go swimming with the clouds again
