Whethan

Watch out, here I come  
Is there any way you can help me out?  
I'm talking right here, watch me jump  
I get a little closer when I've had enough  
I'm falling

Something else  
I'll tell you  
Something else  
I'd help you  
Something more than that  
But it's still not anything  
So here we go again

Watch out, here I come  
Is there any way you can help me out?  
I'm talking right here, watch me jump  
I get a little closer when I've had enough  
I'm falling

Something else  
I'll tell you  
Something else  
I'd help you  
Something more than that  
But it's still not anything

So here we go again

Watch out, here I come  
Is there any way you can help me out?  
I'm talking right here, watch me jump  
I get a little closer when I've had enough  
I'm falling
