Yo, launch the attack, launch the attack Launch the attack, launch the attack Launch the attack, launch the attack (Ah)

Under the radar, gun with a laser
Make them one with the maker, toe tight with the blazer
Can't run from the danger, smoke never vapor
Pray to ya savior, this ain't "Away in a Manger"
You're witnessin' history, front page for your paper
I got the killydem with me, ready to meet the Creator
We ain't doin' them a favor, we correct bad behavior
Yeah, bad like that
Level

Yo, launch the attack, launch the attack Launch the attack, launch the attack Launch the attack, launch the attack Hell's hotter, stealth bomber

Yo, back with a 'matic, crash that right into traffic You lot got very bad habits, so I stay black with the magic Disintegrate them, it don't matter, we got the quantum mechanic s

Trauma's got to be tragic, that's how we burying the hatchet Spent your cover in a corner, foot patrol to keep order Rhaegar's raining fire, you would've been glad to have a sauna Now you wanna run like water, escape with less than a quarter We surrounded the border (Ah)

Launch the attack, launch the attack
Hell's hotter, stealth bomber
Launch the attack, launch the attack
Launch the attack, launch the attack
Launch the attack, launch the attack
Hell's hotter, stealth bomber
