

Superlove

Whethan

My love is superlove, my love, my love is superlove
My love is superlove, my love, my love is superlove

I've been looking at your face, it's dangerous
Making me so goddamn crazy
And I've been dreaming of the taste, it's chemical
Making me so goddamn crazy

I can go slower, slower, slower, slower, slower, slower, slower, slower
Zero to let's go, go, go, go, go, go, go, go

I might be a rebel and break all the rules
I might be a tiger that's gonna get you
I might be a devil with a beautiful bed
I might be the danger that you never had
But my love for you is superlove, superlove
My love for you is superlove, superlove
My love for you is superlove, superlove
My love for you is superlove, superlove

I've been swimming in a daze of manic blue
Making me so goddamn hazy
And I've been counting out the ways I'm stuck on you
The color in my madness, baby

I can go slower, slower, slower, slower, slower, slower, slower, slower
Zero to let's go, go, go, go, go, go, go, go

I might be a rebel and break all the rules
I might be a tiger that's gonna get you
I might be a devil with a beautiful bed
I might be the danger that you never had
But my love for you is superlove, superlove
My love for you is superlove, superlove
My love for you is superlove, superlove
My love for you is superlove, superlove

I can go, superlove, superlove
I can go, superlove, superlove
My love is superlove
I can go, superlove, superlove
I can go, superlove, superlove
My love is superlove

I can go slower, slower, slower, slower, slower, slower, slower, slower
Zero to let's go, go, go, go, go, go, go, go

My love for you is superlove, superlove
My love for you is superlove, superlove
My love for you is superlove
