

# Stay in my head

Whigfield

I've been around the world  
Been looking for you in every city night  
I've been around the world and I  
I gave it all  
Gave it all

Every single time that I  
I sang a rhyme  
I have never danced it alone  
Every little mile baby  
You gave it all  
Gave it all

Baby, stay in my head  
Shake it right sugar baby  
Shake it left sugar  
I say!  
Stay in my head  
Just work it right to the left  
Then jump to the track  
And look to the lights  
I'm the girl in the front  
Will love you back  
So look strait ahead  
Stay in my head

I live around the world  
I'm looking at you where every city lights  
I twist around the world and I  
I need the love, baby  
You give it all  
You give it all

Every little chance I get  
I lead the dance  
Let the music in you to move ya  
Every single mile, baby  
You give it all  
Give it all

Baby, stay in my head  
Shake it right sugar baby  
Shake it left sugar  
I say!  
Stay in my head  
Just work it right to the left  
Then jump to the track  
And look to the lights  
I'm the girl in the front  
Will love you back  
So look strait ahead  
Stay in my head

Every little time's to love  
A very kind to love  
Any dance fits a crowd  
Every single smile, baby

You fit in all  
Fit in all

Baby, stay in my head  
Shake it right sugar baby  
Shake it left sugar  
I say!  
Stay in my head  
Just work it right to the left  
Then jump to the track

Baby, stay in my head  
Shake it right sugar baby  
Shake it left sugar  
I say!  
Stay in my head  
Just work it right to the left  
Then jump to the track  
So look strait ahead  
Stay in my head...
