

Unbelievable

Whigfield

We're touching down on mars
Flying through a million stars
No gravity around
In the air there is no sound

I had a dream on mars
I was walking through the stars
Now that the earth is far
We all keep on thinking

This is unbelievable
Walking without touching the ground
Life is unbelievable tonite

This is unbelievable
Five four three two one and zero
Life is unbelievable tonite

Moving around on mars
Miles and miles from homes and cars
Just going up and down
Thru the air we float around

Closing my eyes on high
Sailing out beyond the sky
Now that we all can fly
We just keep on thinking

This is unbelievable
Walking without touching the ground
Life is unbelievable tonite

This is unbelievable
Five four three two one and zero
Life is unbelievable tonite

Five four three, five four three
Five four three two one and zero
Five four three, five four three
Five four three two one and zero

This is un
This is un
This is unbelievable
This is un
This is un
Walking without touching the ground

Life is un

Life is unbelievable
