

DIVISION STREET

While She Sleeps

'We can say it how it is when there's no one around'
Said the prey to the predator now
'We can wait for the water at the top of the clouds'
Said the rain to the man on the ground
'There's a way beyond the border if we don't make a sound'
Said the pain to the promise of hope
'The avalanche doesn't start until the weight gives out'
Sang the preacher to the protestors' sound
