

# DOWN

## While She Sleeps

You're bringing me down  
Down  
Feel, focus, breathe, euphoria  
Sleep, trauma, heal, gloria

You know there ain't no easy way out  
Clot the wound  
I'm addicted to the pain  
And so are you

The wolf cries mercy for its own kind  
We bump the needle every time  
Cut me loose  
I'm sick of this, so sick of this  
It's time for you to hear my truth

I want to breathe again without sinking beneath  
You're suffocating me  
I wanna feel weightless on the edge

You're bringing me down  
Down  
Feel, focus, breathe, euphoria  
Sleep, trauma, heal, gloria

The wolf cries mercy for its own kind  
We bump the needle every time  
Cut me loose  
I'm addicted to the pain  
And so are you  
A love that's scorned

I want to breathe again without sinking beneath  
You're suffocating me  
I wanna feel weightless on the edge

Do you feel out of focus?  
Do you breathe to find euphoria?  
Sleep through the trauma just to heal  
Dreaming in gloria

If time won't heal us, destroy me while you have the chance  
Three strikes for the compliant, no silent ignorance  
In blind allegiance, we fall to the river  
Styx for the sinners  
Asphyxiate me

A-A-A-Asphyxiate  
Me
