

# ENEMY MENTALITY

## While She Sleeps

Our pockets are full  
But we're standing alone  
We get so lost in this kaleidoscope  
There's nothing to see  
There's nowhere to go  
Your crocodile tears won't fool anyone

And I know I said it  
But never again  
It's the inevitable chain of events  
That get the  
That get the better of us under the influence  
Misled minds, made up mine  
Now reap the consequence

Your crocodile tears don't fool anyone  
Where did we all go wrong?  
Your crocodile tears don't fool anyone  
Where did we all go, where did we all go wrong?  
I've got enemy  
I've got enemy mentality

We're all out of luck  
Arcadia is just a place that we made up  
All we take will take from us  
But let's cry now and smile later

Your crocodile tears don't fool anyone  
Where did we all go wrong?  
Your crocodile tears don't fool anyone  
Where did we all go, where did we all go wrong?  
I've got enemy  
I've got enemy mentality  
Burn it to the ground

The pain you feel sometimes is not meant to leave you broken  
But rather break you open  
The pain you feel sometimes is not meant to leave you broken  
But rather break you open

And I know what I said  
But the damage is done  
Cuts like a fault line  
Straight to the nervous system  
Can you see the world is falling out of love with us?  
Misled minds, made up mine  
Now reap the consequence

Your crocodile tears don't fool anyone  
Where did we all go wrong?  
Your crocodile tears don't fool anyone  
Where did we all go, where did we all go wrong?

I've got enemy, I've got enemy mentality  
I've got enemy, I've got enemy mentality  
I've got enemy, I've got enemy mentality
