

RAINBOWS

While She Sleeps

If the phoenix doesn't rise we got energy
If the truth never lies we've all got enemies
If we're gonna burn in hell for eternity
Life is leaving us so fucking levitate

Love into the void
We're chasing rainbows
Into black holes
I think too much
Rainbows
Rainbows
Rainbows

If the roof sets alight we got synergy
If we move, we release, give me dopamine
We got fuel don't need fire so repeat after me
Life is leaving us so fucking levitate

Love into the void
We're chasing rainbows
Into black holes
I think too much

The floor beneath me is beginning to shake
I don't wanna jinx it but I'm hoping it breaks
I can save you but I can't save myself

Like the corpse flower draws me in
I'm fixated on the rhythm
Nothing good can come of this
We can no longer resist
Listen
All hopes and fears will disappear
Together we dance
Into the black hole
Into the black hole

Don't know what it is, don't know what it wants
Something's wrong, the highlights of a lowlife leaving us
Something's gotta give, something's got a break
We all take the light for granted when we're smothered in

Love
It's all I know, chasing rainbows
And now I see myself
Falling slow into black holes

Rainbows
Rainbows
Rainbows
Rainbows
Rainbows
Rainbows
And all I found was silhouettes of hope

Love into the void
We're chasing rainbows

Into black holes
I think too much

The floor beneath me is beginning to shake
I don't wanna jinx it but I'm hoping it breaks
I can save you but I can't save myself

Rainbows
Rainbows
Rainbows
