

Safari

Whipping Boy

Take a ride on a Day-Glo dreamer
Suffocate in this big black city
I don't know, I don't know

On my cross I've got this sacred feeling
Talking sweet and I'm all done
I don't know, I don't know

We find a river
We ride

Heard a song like a scream in a secret
Face to face and I know you need it
I don't know, I don't know

You change your skin just like the weather
You're nothing more and you know you'll never
I don't know, I don't know

We find a river
We ride
