

## Flashback

Whirr

Flashback blinds my sight  
Your lens was never bright

Oh no, don't go, stay the same, still frame  
Oh no, don't go, stay the same, still frame

Scared of everything you see, I see that in your eyes  
Scared of you and scared of me, don't you realize?  
Both of us cannot be free until you recognize  
Go away and let me be, just let it die

Oh no, don't go, stay the same, still frame  
Oh no, don't go, stay the same, still frame

Scared of everything you see, I see that in your eyes  
Scared of you and scared of me, don't you realize?  
Both of us cannot be free until you recognize  
Go away and let me be, just let it die
