

Ghost

Whirr

You leave me, you leave me again
Can't change how I feel, I cannot pretend
That I don't feel, that I'm not real

You're a ghost, a haunting dream
Hold me close, stay with me
Even if it's just make believe

You lied to me, you lied to me before
I can't trust you, I cannot ignore
The things that you do, because it was always you

You're a ghost, a haunting dream
Hold me close, stay with me
Even if it's just make believe
