

## Hide

Whirr

We're spinning, the thread unwinds and holds me under  
I've lost the time and locked myself inside my room  
Within the walls, your company, it keeps me sane  
Hypnotized, I strive to keep a level head

When I am lost, I keep my head in the clouds  
When I am lost, I keep my head in the clouds

The shelving falls and from the top the ceiling crumbles  
Across my bed we lay sprayed out, I've lost myself  
Beneath the sheets, I hide away from all my hunger  
And here I'll stay until I wake then repeat

When I am lost, I keep my head in the clouds  
When I am lost, I keep my head in the clouds  
When I am lost, I keep my head in the clouds  
When I am lost, I keep my head in the clouds
