

Leave

Whirr

Don't change the way you are
Don't change the way you were because I said so
Run away from your mistakes
And all you hate because you said so
So you will
That's a promise you need to keep
And if you break it, you'll never leave

Don't change the way you are
Don't change the way you were because I said so
Run away from your mistakes
And all you hate because you said so
So you will
That's a promise you need to keep
And if you break it, you'll never leave
