

Lines

Whirr

Relief come soon, I don't regret
Keeping words you might forget
Fell into you, blew me away
You never thought, I never gave

What you want from me
I wish we knew
Our own lines that do not bend or stray

Because of you I don't expect
Keeping signs you never read
I'm into you, you don't see
You never thought, we will never be

I can't let go, you never left
You don't accept what I dreamt
It's always you, unspoken ways
I never stopped, you never gave

What I want from you?
I wish we knew
Our own lines that do not bend or stray

Because of me you never kept
The same mind, but you are safe
I'm into you, you don't see
I always thought, we will never be

Because of me you never kept
The same mind, but you are safe
I'm into you, you don't see
I always thought, we will never be
