

Someone explain  
How we are different  
When we don't meet  
I tell myself it's nothing

I stood still  
Keep running your salt on me  
Sometimes it's falling  
Or reach into  
Or reaching into explain

The message I promised you  
Sometimes I'll spit on to you  
As long as I'll promise you  
I'm looking to purify you and want you to stay

Breathe into me  
Breathe into me endlessly  
Hold this for me  
I'll forget the whole [?]

I stood still  
Keep running your salt on me  
Sometimes it's falling  
Or reach into  
Or reaching into explain

The message I promised you  
Sometimes I'll spit on to you  
As long as I'll promise you  
I'm looking to purify you and want you to stay

I stood still  
Keep running your salt on me  
Sometimes it's falling  
Or reach into  
Or reaching into expand

The message I promised you  
Sometimes I'll spit on to you  
As long as I'll promise you  
I'm looking to purify you and want you to stay
