

## Swoon

## Whirr

Baby, if I could find words to  
Sing along with you would feel swoon  
I'm so into the thought of a good mood  
To disregard time and stay in tune

And then I'll get down with you  
And then I'll get down with you

If the melody is stuck in our heads  
We should find a space to keep repeating  
The singing from you  
Is worth all the times I've heard us sing

And then I'll get down with you  
And then I'll get down with you
