

## Under the Same Name

Whirr

A low place  
With or without you  
The hope is always in motion

A mark made  
Beyond you  
Somedays  
Heard under the table

Somedays  
We'll be in the corner of the room  
Carefree

The ring stays  
With or without you  
The sound  
Will always be simple

A bond made  
Beyond truth  
In dreams  
Where feeling are mutual

Somedays  
We'll be in the corner of the room  
Carefree

Drawing the four faces  
Under the same name  
I play to feel normal

"Only... Only as sure as I am that the reality of one night, let alone that of a whole lifetime, can ever be the whole truth."

"And no dream is ever just a dream."

"The important thing is: we're awake now. And hopefully... for a long time to come."

"Forever."

"Forever?"

"Forever!"
