

# Wait

Whirr

Don't wait for me, I won't wait for you  
Don't wait up all night, don't stay up 'til it's light  
Don't wait for me, I won't wait for you  
Don't wait up all night, don't stay up 'til it's light

Who are you to argue with our thoughts  
On where our lives are going  
Faces with eyes never showing  
Who are you to say you know me?

Don't wait for me, I won't wait for you  
Don't wait up all night, don't stay up 'til it's light

Who are you to argue with our thoughts  
On where our lives are going  
Faces with eyes never showing  
Who are you to say you know me?

Look at me, look at yourself  
Where have we gone so fast, so wrong?
