

The Wolf

Whiskey Myers

Yeah, I kiss my wife goodbye howl at
The moonlight
Time to make some money
Everything's gonna be alright
They tried to hold me down but can't
Nothing last forever
I feel it in my bones there's a change
In the weather
Put me back in the saddle out on the
Road this way I make a living
Is the only way I know
You're messing with some forces that
Your mind can't comprehend
I've done been to the bottom lain't
Going back again
[Chorus]
So who in the hell you think you're
Playing with now
You done f*cked around and let the
Wolf out
And I'll be prowling while you sleep
You're playing for fun I'm playing to
Eat
I've done rattled through a tempest
I've done rocked through the storm
These scars that I bear are hard
Earned and battle worn
They're from crawling and scratching
The whole damn way
Everything that you see is uncut and
Self made

'Cause I was born a rebel doing battle
The night wind moans
When the pale moon shines
When you're scared and alone
I'll be on the hunt while you are fast
Asleep
I'm rough around the edges and long
In the teeth
So come on show me what you got
You dancing with a juggernaut
I done had to fight for every last damn
Thing I got
I don't care about your feelings or if
You understand me
All these things that I do I do to feed
My family
[Chorus]
So who in the hell you think you're
Playing with now
You done f*cked around and let the
Wolf out
And I'll be prowling while you sleep
You're playing for fun I'm playing to
Eat
It's about time the world feels me now

'Cause y'all f*cked around and let this
Wolf out
And I'll be prowling so stay asleep
Keep playing for fun 'cause I'm
Playing to eat
I'm playing to eat
