

Crystal Bullets

White Denim

Crystal bullets shot from your eyes
Crystal bullets just been compromised
Making contact while your slipping away
Making contact with the CIA

Guilty of soft-spoken amnesia
Would it hurt to say I need ya
Anything just to please ya
Love and hug and kiss and squeeze ya
I need ya

Crystal bullets

I can break out just show me a sign
I can make out just throw me a line
Come and love me from across the room
Come and love me just don't come to soon

Guilty of soft-spoken amnesia
Would it hurt to say I need ya
Anything just to please ya
Love and hug and kiss and squeeze ya
I need ya
