

## Had 2 Know (Personal)

White Denim

(Oh, we're gonna have music  
Mu-sic...)

You met your man on the side of the road  
In a not so good part of town  
You ask yourself, where the good time go  
Why didn't anybody stick around  
You walkin' in his place, like you been there before  
A thought singin' outta your mouth  
You'll likely spend it all over again  
Just to watch the ship go down

But you had to know, oh  
You were gonna let it go, oh  
You coulda let me know, oh  
Let me know  
Coulda made it personal

Ooh, I get the feeling' that we'll be shakin' hands  
Somewhere on down that line  
We may feel like long lost friends  
Maybe it all will seem just fine  
I guess I needed you and you needed we  
Both are glad we didn't get more time  
I hope that now and then we'll think again  
'Cause we're both the rememberin' kind

But you had to know, oh  
You were gonna let it go, oh  
Coulda let me know, oh  
Let me know  
You coulda made it personal  
Personal  
You had to know  
You were gonna let it go, whoa  
Coulda let me know, oh  
Let me know  
You coulda made it personal  
Personal  
You, you had to know  
Let me know  
Coulda made it personal  
Let it go  
Coulda let me know  
You coulda let me know  
You coulda made it personal
