

## Hand Out Giving

White Denim

Await the long light in a full stop town  
Where I prayed for blue sky, then stared at the ground  
I tried standing up tried turning around  
I'm stuck inside with the curtains down

I still believe it baby what can I say  
I want to keep my love in a hidden place  
I want to leave here but I won't without you  
I said I'd keep trying, I was telling the truth

Put your hand out giving's gonna get you closer  
Won't you tell me what to do  
Lay your head down, take a little rest on my shoulder  
We can start over new  
I know who to call if I should stumble and fall  
Commit a criminal act or two  
With my hand out giving it my best to get closer  
And I'm closer to you

Lost in my mind singing way too loud  
Spitting on each face in the crowd  
I tried standing up, I started following down  
I'm shook inside and the bands in town

I still believe it baby what can I say  
They took my love and made a big mistake  
They don't see it baby not like you do  
I said I'd keep trying, I was telling the truth

Put your hand out giving's gonna get you closer  
Won't you tell me what to do  
Lay your head down, take a little rest on my shoulder  
We can start over new  
I know who to call if I should stumble and fall  
Commit a criminal act or two  
With my hand out giving it my best to get closer  
And I'm closer to you
