Don't want to go to Massachusetts  
Don't want to drown in alcohol  
So tired of feeling useless  
I never get no love at all  
Babe you look kinda protected  
Do you wanna watch a zero crawl?  
My burning brain has been neglected  
All my emotions in a brawl

Clear liter disconcerted  
Unnerved servant son  
I heard you whisper he was worthless  
At least he gets the job done  
A biting man begs for rejection  
I'm still waiting on your call  
In need of scant dissection  
You want to watch a zero fall?

Red-eye crying  
White light lying alone  
Blow crow cold meat on the bone  
Buried box of nerves made out of chrome  
Steel trap flying  
Flowers dying at home  
No show cold feet at the throne

Bury box of nerves
