

Light On

White Denim

Leave a little light on
When you go
Leave a little light on
So I'll know
That you'll always hear me
When I call
That you'll always hear me
When I call
Leave a little light on
Leave a little light on

Man it's hard to stay alive sometimes
So hard to sleep alone at night
Many people gonna spread some lies
And many more gonna wear disguises
Keep laughing in spite of the darkness
Laughing in the faces of the heartless
Leave a little light on when you go

Man it's hard to be alive sometimes
So hard you wanna run and hide
We wander long, we wonder why
Everyone you know is gonna die
Foolish hearts, immaculate garden
Hard living only getting harder
Leave a little light on when you go

Time takes everything eventually

Leave a little light on
When you go
Leave a little light on
So I'll know
That you'll always hear me
When I call
That you'll always hear me
When I call
Leave a little light on
Leave a little light on
