

# Bye Bye Babylon

White Heart

Walking back through history  
To the mighty city  
I put my feet on the streets of Babylon  
The gold and glitter  
Towering wonder  
It's all within the walls of Babylon  
Strength and security  
Comfort and safety  
What could be better than living in Babylon  
But their strength was just an illusion  
Now this city lies in broken ruins

Bye, bye, bye Babylon  
This monument to pride is gone  
Bye, bye, bye Babylon  
God was not your strength and song  
Good-bye Babylon

Rocket ride through time and space  
It's 2088  
They're diggin' around in the dust of what we've done  
Now people study me  
I'm a part of history  
Oh, did we leave them another Babylon  
Is there evidence of spiritual revival  
Or did we leave a land of broken idols

Bye, bye, bye Babylon  
Is our monument the Holy One  
Bye, bye, bye Babylon  
If God is not our strength and song  
It's good-bye Babylon

Bye, bye, bye Babylon  
Is our monument the Holy One  
Bye, bye, bye Babylon  
If God is not our strength and song  
It's good-bye Babylon

...
