

Guiding Light

White Heart

I, I tried to guide my life
I stumbled, off of the narrow path
Losing myself in the darkest night
Searching for truth than I never had

Guiding light, open my eyes
Help me see in the night
Guiding light, show me the way
Back to the path that is right for me

Life, just seem to take it toll
I, I couldn't find the road
Only when you came and guided me
Did I begin to really see

Guiding light, you opened my eyes
Now I can see in the night
Guiding light you showed me the way
Back to the path that is right
