

Inside

White Heart

Hey Me Nice guy, I don't know your name
You've been hanging around for so long
At my place
I can see the rumblings in the sky
There goes the setting sun
It's crawling back again to find me
Get it out of my mind

(Chorus)

I wanna feel
No I wanna dream
I wanna live on the inside
Ooh I gotta breathe
Gotta pray
I wanna heal on the inside

You ain't got me fooled
Am I a fool
I keep playing along
I know a place not far away where
I can be strong
Grass is greener (Oh it's nice)
On the other side
You know that's a lie
Ley me go, let me be, help me see
I wanna fly

(Chorus 2x's)

On the inside
On the inside
inside
