

## Remember This

White Heart

we gotta remember this  
gotta remember this  
gotta remember

so this is really love  
so this is what it means  
it's better than i dreamed  
have we ever been this close  
just feel the Father here  
He's holding us together  
together, oh...

we gotta remember this  
gotta remember this  
forever remember  
we gotta remember...

no matter where we go  
a different time and space  
we can come back to this place  
'cause what we're feeling here  
was never meant to end  
it's love He keeps on sending  
unending

we gotta remember this  
gotta remember this  
forever remember  
we gotta remember...

this is all He's ever wanted  
the way it's meant to be  
you and i can stay forever  
in the arms of this mystery  
ooh, forever...

we gotta remember this  
gotta remember this  
forever remember  
we gotta remember...
