

## Walking in the Light

White Heart

Walking in the light  
Following the Master  
Walking in the light  
Let Him shine in your life  
For the light keeps burning bright  
It overcomes the night  
So hold on, keep on walking

Well the world looks at you  
And wonders why you do the things you do  
They wanna confuse you  
But you know that you're right, right on track  
You never need to stop and look back  
You gotta keep movin', you just keep on

Walking in the light  
Following the Master  
Walking in the light  
Let Him shine in your life  
For the light keeps burning bright  
It overcomes the night  
So hold on, keep on walking

You gotta keep walking, don't give in  
The devil's fighting wars that he can't win  
Don't let him fool you  
'cause the power of the Lord, is so great  
His love is so much stronger than hate  
It's a love that won't leave you, you just keep on

Walking in the light  
Following the Master  
Walking in the light  
Let Him shine in your life  
For the light keeps burning bright  
It overcomes the night  
So hold on, keep on walking
