

## I Rot

White Lung

Met you way down Seattle to kill another year  
I kicked the fist one and it's becoming very clear that  
We want to rob the same catch but we're too dumb to get it right  
t  
I'm dull and drunk and boring  
I'm dying to kill the night

And I rot  
Like you rot  
I'm the disease that you've already  
And I got  
What you fought  
I'm the disease that you've already caught

Don't you pretend to know it  
Don't' you dare deny  
That we're just the same breed  
We're just the same stupid lie and its you  
And I'm ruined  
You're the first one  
I'm the next one  
We're the dull ones always going down

The water hits my back and  
My knees are white and soar  
Bloody little fore arms will hide the kitchen and the floor

And I rot  
Like you rot  
I'm the disease that you've already  
And I got  
What you fought  
I'm the disease that you've already caught

Don't you pretend to know it  
Don't' you dare deny  
That we're just the same breed  
We're just the same stupid lie and its you  
And I'm ruined  
You're the first one  
I'm the next one  
We're the dull ones always going down
