

Headwind

White Reaper

They brought the walls down, so they could see inside
And then they brought in a heavy dose of
Headwind, headwind
(But don't you slow down)
Headwind, headwind

Let me see you, I think we beat 'em
They can talk and they can [?], but they won't
Get us on it, they can't get us on it

I got to be clear, I never really knew how things were gonna be
Cause they were bringing
Headwind, headwind
(But don't you slow down)
Headwind, headwind

We were out there and torn and tied up
Had to think twice but never dried up
Let me see you, I think we beat 'em
They can talk and they can [?], but they won't
Get us on it, no they'll never get us son it again

Who cares what they do or they say?
It's not like it used to be before, no
We gonna make it out of this place
We won't have to worry anymore, no

Come let me take a look at your face
Come on now, you're burning up the sky, oh
We gonna make it out of this place
We won't have to worry anymore, no

Who cares what they do or they say?
It's not like it used to be before, no
We gonna make it outta this place
We won't have to worry anymore, no
