

## Ring

White Reaper

Oh, little Ruby, ran into ya, at the movies  
You've got something, you've been wanting, want to tell me

About the ring  
On your finger  
You think I talk too much for somebody with nothing to say

Oh, little tumor, are the rumors getting through ya?  
Burnt my tongue on something stupid I said to ya

About the ring  
On your finger  
You think I talk too much for somebody with nothing to say

Like a bow on a tombstone, I don't know why  
Something dire can still be beautiful and  
I'll change my mind if I want, you know  
I talk too much for somebody with nothing to say

Oh, the ring  
On your finger  
You think I talk too much for somebody with nothing to say
