

## It's My Life

White Skull

I've never waited or wanted  
someone to call on me  
so many men to know  
but noone to stay with  
I love my wild life  
and all that it means  
I'm gathering the flowers  
even if it's not spring  
Don't fuck with me guy  
I know the playbill  
Don't fuck with me guy  
I won't turn back on ya'  
Me and my motorbike  
my wings my fantasy  
I got it all now  
let's keep on ridin' on  
I feel a strange sensation  
when I'm by myself  
freedom and powerness  
are running in to my veins  
Don't fuck ...  
It's my life  
I've never waited or wanted  
someone to call on me  
so many men to know  
but noone to stay with  
You were the reason  
I open my eyes  
but freedom it's the reason now  
I can still survive  
Don't fuck ...  
I won't turn back on ya'
