

## Perfect Design

White Skull

I never saw it in the past  
But I'm sure what I feel  
There is a lot of magnetism  
A lot of big designs  
Visible only from the sky  
Only when you fly so high  
South America, England, Europe  
And so on lot of  
Signs in the fields

Perfect designs on the ground  
not by man drawn

Chorus  
These signs are coming from the sky  
Men don't know why  
Universe is talking with us

Scientists threw out  
Some messages and hoped to find  
Someone to hear them  
Genetic trees traveling in space  
And we've received them from another place

Signs, more, signs with message Aliens wrote  
Signs, more, signs we want to know the code  
Signs, more, signs, but we don't understand  
Signs, more, signs, we think it 's a joke
