

# Valhalla

White Skull

The Kingdom of Odin is the Kingdom of Gods  
Where only souls of the brave may rest in peace  
But someone among them had the skill of deceit  
And raised the hand that would open the road to Hell

[CHORUS]

When the winds of Valhalla run cold  
Be sure that the blood will start to flow  
When the winds of Valhalla run cold  
Valhalla

The ring has been broken and a soul must be saved  
Among the bravest of men, who rides to Hell  
The longships are sailing and the chariots ride  
And yes the anger of Thor will serve you well

[CHORUS]

Raise your hands  
Reach and Valhalla will save your soul  
Raise your eyes  
And Odin will lead us on

They say that history repeats itself  
Upon the year of the seventh Century  
Well nobody knows no you never can tell  
So you'd better run now and hide away

[CHORUS]
